

Maximum protection at an optimal price

Do you have safeguards in place to help protect your building's doors and glass windows against the potential threat of intruders and severe weather?

ODP Business Solutions® Workspace Interiors is working with NGS to offer you a tiered approach to glazing security. Our goal: give you the right amount of protection at the best price based on the threat level of each glass window or door in your building.

Choose your glazing security tier

Tier 1: Entry-level security film

- 3M™ Ultra S800 interior
- 3M™ Impact Protection Adhesive

Tier 2: TRI-SHIELD® security system

- 3M™ Ultra S800 interior
- 3M™ Impact Protection Adhesive
- Exterior weatherable film

Tier 3: 3M™ S2400

- Constructed with polyurethane (instead of polyester) so it stretches (560% elongation at break strength)
- 5+ times more forced-entry-resistant than traditional polyester films
- Visibly clear
- Cures fast (up to 80% cured in 48 hours)

Tier 4: Access denial

- Always working, permanent, clear board-up
- No maintenance or operation required
- 24/7 graffiti and acid-etching protection
- Scratch-resistant and UV-coated
- Noise dampening
- Frames available in bronze and clear anodized

Tier 5: Ballistic glass

- Thick glass designed to resist bullets
- Comes in various levels of bullet resistance

Not sure which is the best tier for you?

Schedule a complimentary building security assessment. A member of the Workspace Interiors team will evaluate your buildings to help you:

- Identify and prioritize vulnerable areas with a zoned approach
- Select the appropriate product tier(s) based on your objectives
- Review an actionable report with building security recommendations
